

Procure-to-Pay (P2P) Quick Reference Guide

SAP Fiori – End User Guide

Prepared by: Kavita Chhikara (KC)

1. Purpose

This Quick Reference Guide (QRG) provides SAP Fiori end users with step-by-step instructions for executing the complete Procure-to-Pay (P2P) process using SAP S/4HANA Fiori applications.

The guide covers:

- Purchase Requisition (PR)
- Approvals
- Purchase Order (PO)
- Goods Receipt (GR)
- Invoice Verification
- Payment Processing
- Procurement Tracking

2. P2P Process Overview

Business Requirement → Create Purchase Requisition → PR Approval Workflow → Create/Convert Purchase Order → Vendor Delivery → Post Goods Receipt → Verify Vendor Invoice → Payment Execution → Procurement Completed

3. SAP Fiori Launchpad Navigation

Accessing SAP Fiori:

1. Open browser
2. Login to SAP Fiori Launchpad
3. Use tiles/apps assigned to your role
4. Use search bar for applications

4. Create Purchase Requisition (PR)

Fiori App: Create Purchase Requisition

Purpose: Used to request materials or services internally.

Steps:

1. Open Create Purchase Requisition
2. Select Material or Service
3. Enter Material Number, Quantity, Delivery Date, Plant, Storage Location, Cost Center

4. Review details
5. Click Order
6. Submit for approval

Output: PR Number generated

5. Approve Purchase Requisition

Fiori App: My Inbox

Purpose: Managers approve or reject procurement requests.

Steps:

1. Open My Inbox
2. Select pending PR workflow
3. Review Quantity, Cost Center, Delivery Requirement
4. Choose Approve, Reject, or Send Back
5. Add comments if required

6. Create Purchase Order (PO)

Fiori App: Manage Purchase Orders

Purpose: Create or convert Purchase Orders from approved PRs.

Steps:

1. Open Manage Purchase Orders
2. Create PO or reference approved PR
3. Enter Vendor, Pricing, Payment Terms, Delivery Address
4. Validate tax and freight conditions
5. Review workflow status
6. Save PO

Output: Purchase Order Number generated

7. Post Goods Receipt (GR)

Fiori App: Post Goods Movement

Purpose: Record goods received from vendor.

Steps:

1. Open Post Goods Movement
2. Select Goods Receipt and Purchase Order
3. Enter PO Number
4. Verify Quantity received, Storage location, Batch number
5. Check for damaged goods
6. Post document

Output: Material document created and Inventory updated

8. Invoice Verification

Fiori App: Create Supplier Invoice

Purpose: Verify supplier invoice against PO and Goods Receipt.

3-Way Match: Purchase Order → Goods Receipt → Supplier Invoice

Steps:

1. Open Create Supplier Invoice
2. Enter Supplier Invoice Number, Invoice Date, Amount
3. Reference PO
4. Validate Quantity, Pricing, Taxes
5. Simulate invoice
6. Post invoice

Output: Accounting document generated

9. Payment Processing

Purpose: Execute vendor payments for approved invoices.

Process Flow:

1. Due invoices identified
2. Payment proposal generated
3. Exceptions reviewed
4. Payment run executed
5. Vendor payment completed

14. End-to-End Fiori P2P Snapshot

Create PR → Approve PR → Create PO → Receive Goods → Post GR → Create Supplier Invoice → Payment Processing

Common P2P Fiori Apps

Process	Fiori App
Create PR	Create Purchase Requisition
Approve PR	My Inbox
Create PO	Manage Purchase Orders
Goods Receipt	Post Goods Movement
Invoice Verification	Create Supplier Invoice

Track Procurement	Monitor Purchase Orders
-------------------	-------------------------

Common Issues

Issue	Resolution
Quantity mismatch	Validate received quantity
Incorrect storage location	Correct before posting
Closed PO	Contact procurement team

Procurement Tracking & Monitoring

Activity	Fiori App
Monitor PO Status	Monitor Purchase Orders
View PR Status	Manage Purchase Requisitions
Track Invoice	Supplier Invoice List
Display Goods Movement	Material Documents Overview

Common End User Issues

Issue	Action
Workflow stuck	Contact approver
Invoice blocked	Validate GR and pricing
Duplicate invoice	Verify invoice number
Missing PO	Confirm PR approval
GR reversal required	Reverse goods movement

Key Roles in SAP Fiori P2P

Role	Responsibility
Requestor	Creates PR
Manager	Approves PR
Buyer	Creates PO
Warehouse User	Posts GR
AP Analyst	Verifies invoices
Finance Team	Executes payment

Support Contacts

Support Area	Team
SAP Access Issues	IT Helpdesk
Procurement Questions	Purchasing Team
Invoice Issues	Accounts Payable
Fiori App Issues	SAP Support Team
Master Data Updates	SAP MM Team

12. Best Practices

- Submit complete procurement information
- Validate supplier and material data
- Post GR immediately after receipt
- Monitor workflow notifications daily
- Avoid duplicate invoice processing
